GOSHEN ACQUISITIONS/GRAND ACRES LIMITED TEAMS UP WITH
BIEN-AIMÉ, SAVARA, CHIMANO & FANCY FINGERS OF THE GROUP SAUTI SOL

Greater Gains

Goshen Acquisitions/Grand Acres is pleased to announce its partnership with Sauti Sol, in a bid to create more awareness around our brand and our #OwnLandInKenya initiative. This partnership is the love child of the Band and Goshen Acquisitions' core mission to demystify the property ownership journey in Kenya, by offering a transparent disclosure of the processes involved in making safe and savvy property investments and purchase decisions. In keeping with this mandate, this partnership will see Sauti Sol and Goshen Acquisitions communicate the power of property ownership, while educating Kenyans here and abroad on the legal and administrative steps required to acquire land in Kenya.

In acknowledging that the land acquisition journey in Kenya is often a harrowing ordeal, this partnership will set out to demonstrate that with the trusted partner, it can be a pleasant experience. Being appropriately informed about how to safely acquire land is not only critical to those in the formal sector but also for those in the informal sector such as the creative industry, which is dear to the hearts of the band. The end result will be a buffet of great content, including fire side chats with Goshen Acquisitions' CEO Mr. Solomon Wangwe, along with their legal team and partners across the sector, the unveiling of the Goshen Acquisitions sound and them song titled "HOMELAND", penned and performed by the band members, culminating in the breaking of ground of the band's biggest project yet, in partnership with Goshen Acquisitions.

"I feel profoundly privileged to partner with my patriotic brothers of Sauti Sol and their team, to not only capture the spirit of Goshen Acquisitions and its sister-brand Grand Acres in sound and song, but to ultimately make a lasting impact in both our industries, for our beloved country." – **Solomon Wangwe**
